

KEY STRENGTHS

As a nursing and healthcare leader with over 40 years experience in international health care environments, and publicly voted one of the 20 most influential people in the history of the NHS, Brian Dolan has a track record of delivering results, communicating with influence and building strong cross organisational relationships. The success of the global #EndPJParalysis Movement to encourage inpatients to get up, dressed and moving demonstrates an ability to engage motivate and support others to do the right thing for patients, staff and services. He has specialist expertise in leadership, clinical service redesign and patient flow, as well as a proven ability to shape strategic thinking and create sustainable organisational change.

Brian believes better care begins when leaders are brave enough to act.

CURRENT POSITIONS

Director

The Braver Group Ltd | 2001 - present

The Braver Group is a movement disguised as a company. We work with the people behind the titles, the ones making tough calls, holding messy conversations, and trying to lead without losing their soul.

For over two decades, we've helped senior leaders ditch the performative noise, break patterns that keep them stuck, and build cultures that actually feel good to work in. Our work is grounded in behavioural science. Our programmes, like ICARE, mix challenge with care, make space for reflection and growth, and equip people to be braver, more impactful, and to embrace their humanity.

The founders, Professor Brian Dolan OBE and Professor Lynda Holt, bring decades of experience in leadership, healthcare and education, and have influenced working lives of thousands of leaders.

The Braver Group offers a range of leadership, cultural development, and coaching services in healthcare, education and social impact organisations. We work at the intersection of leadership, culture, and humanity, helping people to lead with courage, compassion, and clarity, helping them grow cultures that heal and not harm.

Honorary Adjunct Professor of Innovation in Healthcare

*Faculty of Health Sciences and Medicine, Bond University, SE Queensland
2021 - present*

Honorary Professor of Leadership in Healthcare

PREVIOUS RELEVANT EXPERIENCE

Director of Service Improvement

Canterbury DHB, NZ | 2005 - 2022

This was a rolling contract which provided whole systems leadership and culture change, including around patient flow in one of the world's top five integrated health systems. Developed and led the award-winning 'Collabor8 - lean thinking and leadership' program that focused on clinical microsystems change in the Canterbury Health System. This programme was also attended by >1,600 unit managers in New South Wales Health System. As a vehicle for translational research it was highly evaluated in an external review of the program by University of New South Wales, with cost savings/cost avoidance believed to be in excess of AUD\$30m (£15.8m/€18.3m). Key member of the Design Lab team which worked with staff and patients as part of the extensive hospital and facilities rebuilds following the 2010-2011 Christchurch earthquakes.
